PROFESSIONAL SUMMARY

Full Stack Developer with 5 years of experience, specializing in React.js and Next.js. Built production web applications with React.js for healthcare and SaaS clients, plus a live, SEO-optimized Next.js site built and deployed from scratch. Delivered 4+ client applications serving 1,000–2,000 active users: reusable component libraries, complex forms and state management, real-time data dashboards and Stripe billing interfaces, with a ~40% performance improvement. Backed by Node.js, Express.js and REST APIs with MySQL, PostgreSQL and MongoDB. Worked in a 10-member Agile team alongside designers, the backend team and QA, and mentored freshers. Uses AI coding tools (Claude, ChatGPT) to ship faster.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, SSR, SSG, SEO), JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design

State & Data: Redux Toolkit, React Query, REST API integration, GraphQL, Forms & Validation

UI & Styling: Material UI, Tailwind CSS, Reusable Component Libraries, Data Visualization

Testing & Tools: Jest, React Testing Library, Git, GitHub, Postman, VS Code

Backend: Node.js, Express.js, REST APIs, JWT, MySQL, PostgreSQL, MongoDB, Sequelize, Prisma

Integrations: Stripe, HubSpot, Firebase, Twilio

AI Tools: Claude, ChatGPT, Agentic AI workflows (AI-assisted development)

PROFESSIONAL EXPERIENCE

Software Engineer (Full Stack) — Dynamisch IT Pvt. Ltd., Pune **Aug 2021 – Jul 2026**

- Built and maintained the React.js frontends of 4+ client applications (MyStudyManager, Waggoner Licensing Portal, ImageBloom, Humanistics AI) serving 1,000–2,000 active users.
- Developed reusable, responsive component libraries with React.js, Material UI and TypeScript, keeping the UI consistent and speeding up feature delivery.
- Managed complex forms and application state with Redux and React Query; integrated REST APIs with validation and error handling.
- Improved application performance by ~40% using code-splitting, lazy loading, memoization and API caching.
- Built executive dashboards and data-visualization components rendering real-time AI analysis data.
- Built Stripe subscription billing and renewal flows for a licensing portal used by schools, clinics and the U.S. Military.
- Wrote unit tests with Jest and React Testing Library; collaborated with designers, QA and client stakeholders on releases.
- Developed Node.js/Express.js REST APIs with JWT authentication, validation and MySQL (Sequelize) for form submissions and backend processing.
- Integrated HubSpot CRM, Firebase and Twilio for lead tracking, notifications and SMS workflows.
- Worked in a 10-member Agile team (Waggoner) with designers, the backend team and QA, and in 5–6 member teams on other projects; mentored and trained freshers on React.js and coding best practices.
- Used AI coding tools (Claude, ChatGPT) and agentic AI workflows for faster development, debugging, refactoring and code reviews.

KEY PROJECTS

Kokanvedh — Family Retail Business (Personal Project) **Jul 2026 – Present**

Product catalog website (live) | Next.js (App Router), React.js, Prisma, SSR, SSG, SEO

- Designed, built and deployed a fully responsive product catalog from scratch for my family's retail business, using the Next.js App Router with server-side rendering (SSR) and static generation (SSG).
- Built product listing and category browsing with SEO-optimized pages; modeled data and queries with Prisma ORM.
- Live: kokanvedh.com | Code: github.com/guru-pandit/kokanvedh

Waggoner Licensing Portal — Waggoner Diagnostics **Jan 2025 – Jul 2026**

SaaS licensing platform for schools, clinics and the U.S. Military | React.js, Node.js, REST APIs, Stripe, Material UI

- Developed license and device management features in React.js for a production SaaS platform.
- Implemented Stripe subscription billing, payments and renewal workflows; integrated REST APIs with validation and state handling.

Humanistics AI — Humanistics **Jan 2026 – Mar 2026**

AI-powered document scanning and analysis platform | React.js, REST APIs, Data Visualization

- Built executive dashboards and data-visualization components; integrated APIs to render real-time AI analysis data.

ImageBloom — ImageBloom **Jan 2023 – Jan 2025**

Internal operations platform for job assignments, task tracking and billing | React.js, Redux, REST APIs, Material UI

- Built reusable UI components, complex forms, Redux state management and API integrations.

MyStudyManager — Realtime eClinical Solutions **Oct 2021 – Jan 2024**

Clinical trial patient engagement portal | React.js, Node.js, Express.js, MySQL, REST APIs

- Owned the Visit Form module end-to-end: React.js frontend plus Node.js/Express.js REST APIs for form submissions and validation.

EDUCATION

B.E. – Electronics & Telecommunication Engineering **2017 – 2020**

Rajendra Mane College of Engineering & Technology, Ratnagiri | CGPA 8 / 10

Diploma – Electronics & Telecommunication Engineering **2013 – 2016**

Government Polytechnic, Ratnagiri | 69.47%

HSC (12th) – Science **2013**

Jr. College (Arts & Science), Nive Budruk | Konkan Divisional Board | 55.33%

SSC (10th) **2011**

SKPM High School, Kolambe | Kolhapur Divisional Board | 88.91%

CERTIFICATIONS

- GraphQL with React: The Complete Developer's Guide — Udemy (2026)
- Essential Program in React JS — LetsUpgrade (2021)
- Web Development — Internshala (2020)

LANGUAGES

English (Proficient), Hindi (Proficient), Marathi (Native)
